

Global CBD Manufacturer CBD Living Launches New Line Of Disposable Vapes, With No Additional Vaping Equipment Needed

CBD Living Disposable Vapes come in six tantalizing flavors and boast 250 mg of Nano-CBD, no THC and no nicotine

CORONA, Calif. ? April 9, 2019 /Canna Newswire/ ?]International CBD manufacturer and distributor **CBD Living** today announced the launch of a new collection of Disposable Vapes, designed for easy CBD consumption without any additional vaping equipment or previous vaping knowledge required. **CBD Living Disposable Vapes** are available in 6 delicious flavors, including Bubblegum, Grapefruit, Blueberry and Natural, along with two flavors that are sure to delight cannabis enthusiasts: Sour Diesel and Tangie, which taste like the popular cannabis strains - minus the THC.

Each 0.5 gram CBD Living Disposable Vape contains 250 mg of Nano-CBD sourced from 100% organic hemp grown on state-licensed hemp farms in Colorado and contains absolutely zero THC or nicotine. CBD Living Disposable Vapes are triple-tested for CBD content and to ensure it is free from THC and harmful chemicals, and all test results are posted online. In addition, CBD Living is proud to announce that all flavors are vegan and cruelty-free.

CBD Living Disposable Vapes don't require any additional equipment, such as vape pens or battery chargers. Simply use the vape until all liquid is gone, then dispose.

?We found that many consumers had difficulty charging our previous vape batteries and installing new cartridges,? says CBD Living COO Sean McDonald. ?So we set out to find a better way to deliver CBD vapes to our customers. Our new Disposable Vapes couldn't be easier - simply enjoy then toss when all the liquid is gone. We hope this new product will help make vaping CBD more accessible.?

Due to US merchant regulations, CBD Living Disposable Vapes are not currently sold online. To purchase, please use the convenient online [store locator](#) to find a nearby retail location.

About CBD Living

CBD Living is one of the fastest-growing global cannabidiol (CBD) manufacturers and distributors, with more than 65 products in 3,000 stores and shipping to consumers worldwide. CBD Living's prestigious in-house scientists use ultrasound waves to break down CBD particles into nanoparticles, allowing the CBD to pass through the blood membrane for enhanced absorption. This proprietary technique leads to up to 90 percent bioavailability, compared to 10-15 percent bioavailability when consumed in a traditional CBD product. From the original CBD Living Water product to CBD gummies, chocolates, freezes, tinctures, vapes, bath bombs and more, CBD Living is constantly innovating to bring the future of CBD to consumers today.
